Giessen, Hesse, Germany | [linkedin.com/in/murodjonberdimurodov](https://www.linkedin.com/in/murodjonberdimurodov) | murodjonberdimurodov123@gmail.com
Financial Data Analyst | MSc Economics of Global Risk | SQL · Python · Power BI · Bloomberg

PROFESSIONAL SUMMARY

Finance professional with 2+ years of banking experience in trade finance, international transactions, and regulatory compliance, now specializing in financial data analytics. Currently combining an MSc in Economics of Global Risk with hands-on data science and reporting work, applying SQL, Python, Power BI, and econometric modeling to solve problems in the financial sector. Bloomberg-certified with proven ability to bridge domain expertise in banking operations with quantitative analysis and data-driven decision-making. Seeking a Data Analyst role within financial services where I can leverage both my technical skills and deep understanding of banking workflows.

CORE COMPETENCIES

Data & Analytics	Finance & Banking	Research & Methods
SQL (PostgreSQL, MySQL)	Trade Finance / Letters of Credit	Econometrics (VAR, OLS)
Python (Pandas, NumPy)	KYC / AML Compliance	Stata
Power BI / DAX	Sanctions Screening (OFAC/EU)	Financial Risk Analysis
dbt (Data Transformation)	Financial Modeling	Time-Series Analysis
Excel (Advanced)	Bloomberg Terminal	Database Design / RDBMS
Data Visualization	Transaction Banking	Statistical Modeling

PROFESSIONAL EXPERIENCE

Data Science & Reporting Intern

FZD Global GmbH

Mar 2026 – Present

Heidelberg, Germany · Internship

- Build and maintain interactive dashboards and management reports using Power BI, translating raw operational and financial data into actionable insights for internal stakeholders and senior management.
- Write and optimize SQL queries to extract, transform, and validate data from relational databases, supporting both recurring reporting workflows and ad hoc analytical requests across departments.
- Clean, structure, and reconcile large datasets to ensure data integrity and consistency across all reporting outputs, reducing manual error and improving data reliability.
- Apply dbt for data transformation and modeling within the analytics pipeline, ensuring reproducibility, documentation, and version control of data logic.
- Collaborate with cross-functional teams to define KPIs, identify reporting requirements, and automate manual data processes to improve turnaround time on deliverables.

Research Assistant — Applied Economics

Justus Liebig University Giessen

May 2025 – Present

Giessen, Germany · Part-time

- Conduct quantitative research on inflation dynamics and financial risk using econometric methods including Vector Autoregression (VAR) and Ordinary Least Squares (OLS) regression.
- Develop and execute statistical models in Python and Stata, processing macroeconomic and financial time-series datasets to test hypotheses on risk transmission and price stability.
- Prepare data visualizations, regression output tables, and research summaries for faculty working papers and academic presentations.
- Collect and clean data from central bank databases, World Bank, and Bloomberg Terminal, ensuring dataset quality and analytical reproducibility.

Leading Expert — Transaction Department

Xalq Banki (People's Bank of Uzbekistan)

May 2024 – Sep 2024

Tashkent, Uzbekistan · Full-time

- Managed end-to-end processing of international payment transactions, ensuring accuracy, regulatory compliance, and timely settlement across correspondent banking networks.

- Verified compliance of all cross-border transfers with local legislation, international sanctions lists (OFAC, EU, UN), and KYC/AML requirements, maintaining a zero-violation record.
- Initiated and led the implementation of an electronic documentation system for the transaction department, reducing manual processing time and improving audit traceability.
- Conducted client due diligence reviews for high-value international transactions, escalating flagged cases per internal risk protocols.

Trade Finance Specialist

Sep 2022 – Aug 2023

Asakabank

Tashkent, Uzbekistan · Full-time

- Processed and structured trade finance instruments including letters of credit (L/Cs), bank guarantees, and documentary collections for corporate and institutional clients.
- Coordinated international grant disbursement and investment transaction workflows with global development institutions including EBRD and Asian Development Bank (ADB).
- Identified high-potential corporate clients and prepared investment proposals for introduction to international financial institutions, contributing to the bank's cross-border deal pipeline.
- Served as primary point of contact for trade finance clients, managing documentation, compliance checks, and transaction lifecycle from initiation to settlement.

Information Technology Trainee

May 2021 – Sep 2021

Asakabank

Tashkent, Uzbekistan · Internship

- Coordinated with bank branches across Uzbekistan to monitor performance and stability of core banking software, supporting IT operations in reducing system downtime.
- Participated in User Acceptance Testing (UAT) for new banking software releases, validating functionality under laboratory and production conditions before enterprise deployment.
- Collected user feedback and operational requirements from branch employees, translating business needs into technical improvement recommendations for the development team.

EDUCATION

Justus Liebig University Giessen

Sep 2024 – Present

MSc in Economics of Global Risk — Applied Economics

Focus: Financial risk modeling, inflation dynamics, applied econometrics. Tools: Python, Stata, Bloomberg Terminal.

Westminster International University in Tashkent

2020 – 2024

BSc in Economics and Finance — Upper Second Class Honors (2:1)

UK-accredited curriculum (University of Westminster, London). Coursework: Financial Economics, Econometrics, Corporate Finance, Investment Analysis.
